Art Unit: 1754

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 16-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over SU '570.

The reference teaches treating BCC with hydroxide to make cobalt hydroxide. The abstract does not teach the suspension or other details, however using the claimed concentration to make the product is an obvious expedient of process optimization; In re Boesch 205 USPQ 215.

Claim 21 is rejected under 35 U.S.C. 103(a) as being unpatentable over SU '570 as applied to claims 16-20 above, and further in view of JP '385.

SU does not calcine, but JP does to make the oxide. Performing the heating is an obvious expedient to make the desired product.

Applicant's arguments filed 6/27/05 have been fully considered but they are not persuasive.

The '101 patent is withdrawn not because of what is argued- the claims are open to later addition of acid- but because it does not use aqueous solution- see column 2. The SU patent does not use 'protoxide' and even if it did, no difference is seen in the compounds used.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication should be directed to examiner Hendrickson at telephone number (571) 272-1351.
